BIOSUN[®]

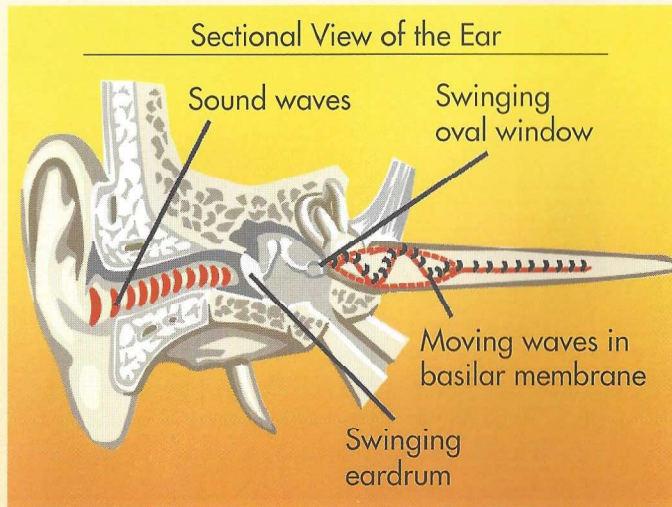

Feel Well. Naturally.

How they work

Earcandles have a purely physical function. A light suction action (chimney effect) and the movement of the flame create a vibration of air in the Earcandle, generating a massage-like effect on the eardrum.

This induces a pleasant feeling of warmth and a balance of pressure in the ears, forehead and sinuses. It is soothing and helpful for earache and headache, ear noise, stress and nervousness. These benefits have been well known through 17 years of experience and confirmed by thousands of doctors worldwide.

This physical effect is often described directly after the treatment as a soothing, pressure and pain relieving sensation, mainly in the ear and head area.

Treatment may also spontaneously cause freer nasal breathing and an improved sense of smell, even when the nose was blocked before treatment.

Furthermore, the whole ceremony brings a wonderful relaxation, a deep sense of security and a feeling of happiness, which is seldom experienced.

Increasing numbers of people in our culture have enjoyed and benefited from the pleasant effects of this age-old ceremony.

Excellent Quality and Best Ingredients

Original BIOSUN Earcandles are still made by hand today using the traditional recipe and the finest regularly tested ingredients.

Without compromise, only premium quality, pesticide-free untreated cotton is used.

Slight differences in colour or length are quality features of craftsmanship and are distinctive of this natural product.

For our Earcandles we use only pure beeswax, honey extract and traditional herbs such as Sage, St John's wort, Camomile and pure essential oils.

The Legend

The magic of fire has fascinated people from the very beginning of time and control of this element gave light and warmth.

Earcandles evoke a similar fascination and have been used by many cultures as an effective natural therapy since ancient times.

Historical roots can be found among the peoples of the Siberian prairies, Asia and the native North and South American Indians.

Ancient rock paintings show the use of Earcandles at initiation rituals and medicinal ceremonies.

The Hopi, the oldest Pueblo people with great medicinal knowledge and a high degree of spirituality, brought this knowledge to Europe with the professional involvement of BIOSUN.

Since 1985 we have been researching the use of Earcandles and re-establishing their popularity.

YinYang

Essential Oil Earcandles and Fragrances

Harmony of Body, Soul and Spirit

For the first time, sophisticated research has made it possible to combine the advantages of the Earcandle with traditional aromatherapy.

All aromas are prepared in accordance with the *ancient Chinese YIN and YANG philosophy*. Unique, new scent combinations have been created, incorporating the balance of both male and female elements. *BIOSUN essential oils are of exquisite quality, pure, natural and without additives. They are supplied in small 10 ml bottles.*

The YinYang essential oil Earcandles are available in the same fragrances as the essential oils, offering the combination of *fragrance and Earcandle*.

The essential oils are also perfect as individual perfume, room aroma or bath essence.

Essential Oils
